## **Staff or Student Author Affiliation Supporting Documentation**

---

### **General Report Notes**

The authors of any research publications being counted in the HERDC Research Publication Return must be affiliated with the University of Queensland and the affiliation must usually be identified either within or on the work being claimed.

Where author affiliation with the University of Queensland is not identified within a work, the following evidence retained in verification material would be sufficient to demonstrate author affiliation and should include:

- \* a statement from the author indicating that he or she undertook the research leading to the publication in his or her capacity as a staff member or student of the University of Queensland

and

- \* an extract from the University of Queensland staff or student list that lists the author.

This report can be used to supply the required extract from the official staff or student list of the university for use as the additional supporting evidence.

A statement from the author indicating the research was done on behalf of the University is also required.

This report will list any staff who are currently employed by UQ or were part of our Official Staff census in the last 5 years.

There is also a Student report that can be used to identify UQ students who are current students or were Students reported in the Official census in the last 5 years.

NOTE: some students are also staff. It is preferable to use a staff record if one is available.

### **How to use this report**

To use this report you can search for people by surname and by Preferred name (preferred given name). Both name fields must be populated when searching by name.

The "%" wild card can be used in both fields.

You can also search for people using their "UQ Sign In" user name, their staff Aurion Id or their Student Id.

Please put a 'x' in any field not being used in the search.

If doing a name search you may end up with several people to choose from (especially if using a wild card name search). If you then locate the staff member you are after from this list of results, then get their Aurion ID from the report and enter it into the 'Enter value(s) for Aurion Number' field. If the required person is a Student, then enter their Student ID in the 'Enter value(s) for Student ID instead.

Replace all other search fields with an 'x' then rerun the report.

This will ensure only the desired staff or student is returned by the report. This report can now be saved as a 'pdf' document to be sent to the eSpace Team using the [espace@library.uq.edu.au](mailto:espace@library.uq.edu.au) address.

Please ensure the publication PiD this is being generated for and the name of the researcher is included in the file name (eg. "JohnSmith\_author\_affiliation\_pid\_12345.pdf").

Please note that eSpace cannot take file names with spaces, so use an underscore "\_" in the file name (as per the example above).

### **Contact for this report**

For help with this report (eg for explanations of terms or if there appear to be problems with the data) contact Research and Innovation Division on ext. 54581 or email [biblio@research.uq.edu.au](mailto:biblio@research.uq.edu.au)

If you require assistance with using or amending this report, please contact MIS User Support on ext 52595.
